

Vacancy

Coordinator Workshop

Radac BV, Delft (36 - 40 hours)

As a Workshop Coordinator you will work in an innovative, dynamic and growing company. In our compact organization you are therefore responsible for the complete production and quality control of all wave radars! That means not only assembling, gluing and soldering these high-tech measuring equipment. But also installing the software and performing plus optimizing quality checks. Your enthusiasm and hands-on mentality ensures that you and your colleagues succeed in making a move forward in this dynamic environment. Ultimately, it becomes your responsibility to deliver every product, with consistent high quality, to the customers on time. A challenging task with great diversity!

Activities:

- Assembly of the products (including soldering, gluing, preparing cables)
- Software installations
- Implementing and optimizing quality control
- Packaging the products for transport
- Inventory management
- Coordinating, planning and optimizing the daily work in the workshop
- Responsible for organizing and streamlining all operational processes
- Guaranteeing continuous, high quality of the products

Function requirements:

- You have completed a MBO+/HBO education in a relevant technical direction
- You have at least several years of relevant work experience
- You work in a structured and precise manner
- You are proactive, solution-oriented, independent and you think in possibilities
- You have an excellent level of both the Dutch and English language
- You are communicative, energetic and not easily satisfied
- Knowledge of offshore and/or oceanography is an advantage.

We offer attractive employment benefits, a dynamic work environment with an innovative strong character and room for personal development.

Radac is a specialist in measuring waves at sea. With its passion for technology, Radac combines highly accurate radar technology with the rough offshore conditions. This family business has been developing high-tech measuring equipment since 1996, making it an international leader in the offshore industry. A very dynamic market in which innovation and cooperation with the customer are key.

Are you interested in this position and in our company?

Then we would like to receive your motivationletter with CV! Send it to katja@radac.nl.
